

Thanks heaps for downloading my free 8 bit Action Music Pack (\$10 value)! This pack contains 4 loop-able tracks (WAV & OGG files) and 2 stingers. Two of the tracks have a FULL version with the Intro included.

These tracks were designed for Platformers and Action games in mind but would suit any game that need that classic chiptune sound!

No need to purchase a license to use these in your commercial game and while it isn't necessary, a credit would be nice. (Credit as **Maskedsound**)

If you'd like to hire me to compose custom music for your game, feel free to reach me at contact@maskedsound.com

Cheers,
Amanda aka Maskedsound
